

# Building Your AXIORY Mobile Trading Environment

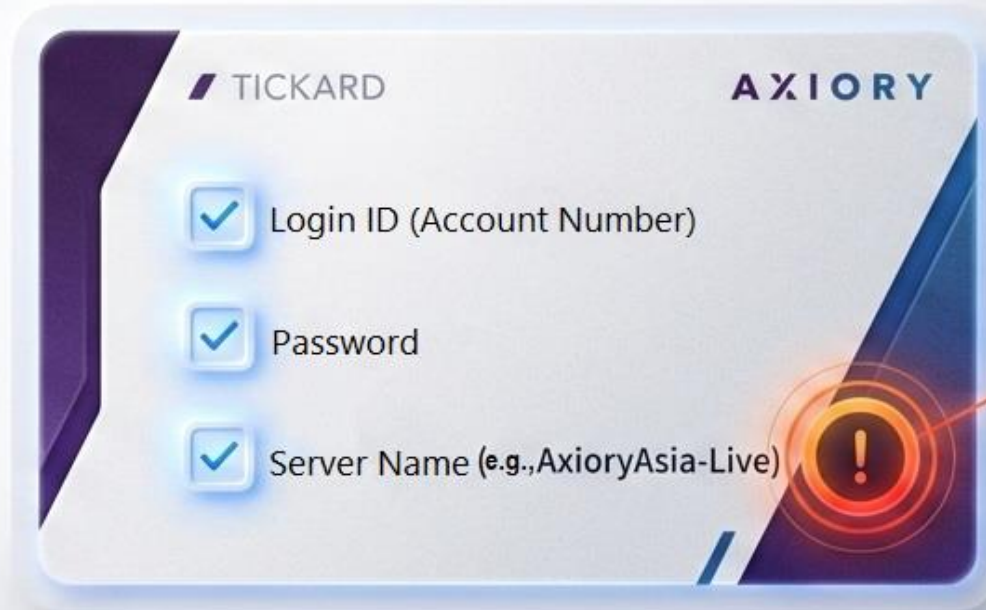

MetaTrader 4 / 5 App Installation & Basic Operations Guide

**Connect seamlessly to global markets in just 4 steps.**

# The "3 Keys" Required to Access Your Account

**※Important※**

**If even one character in the server name is incorrect, you will not be able to log in.**

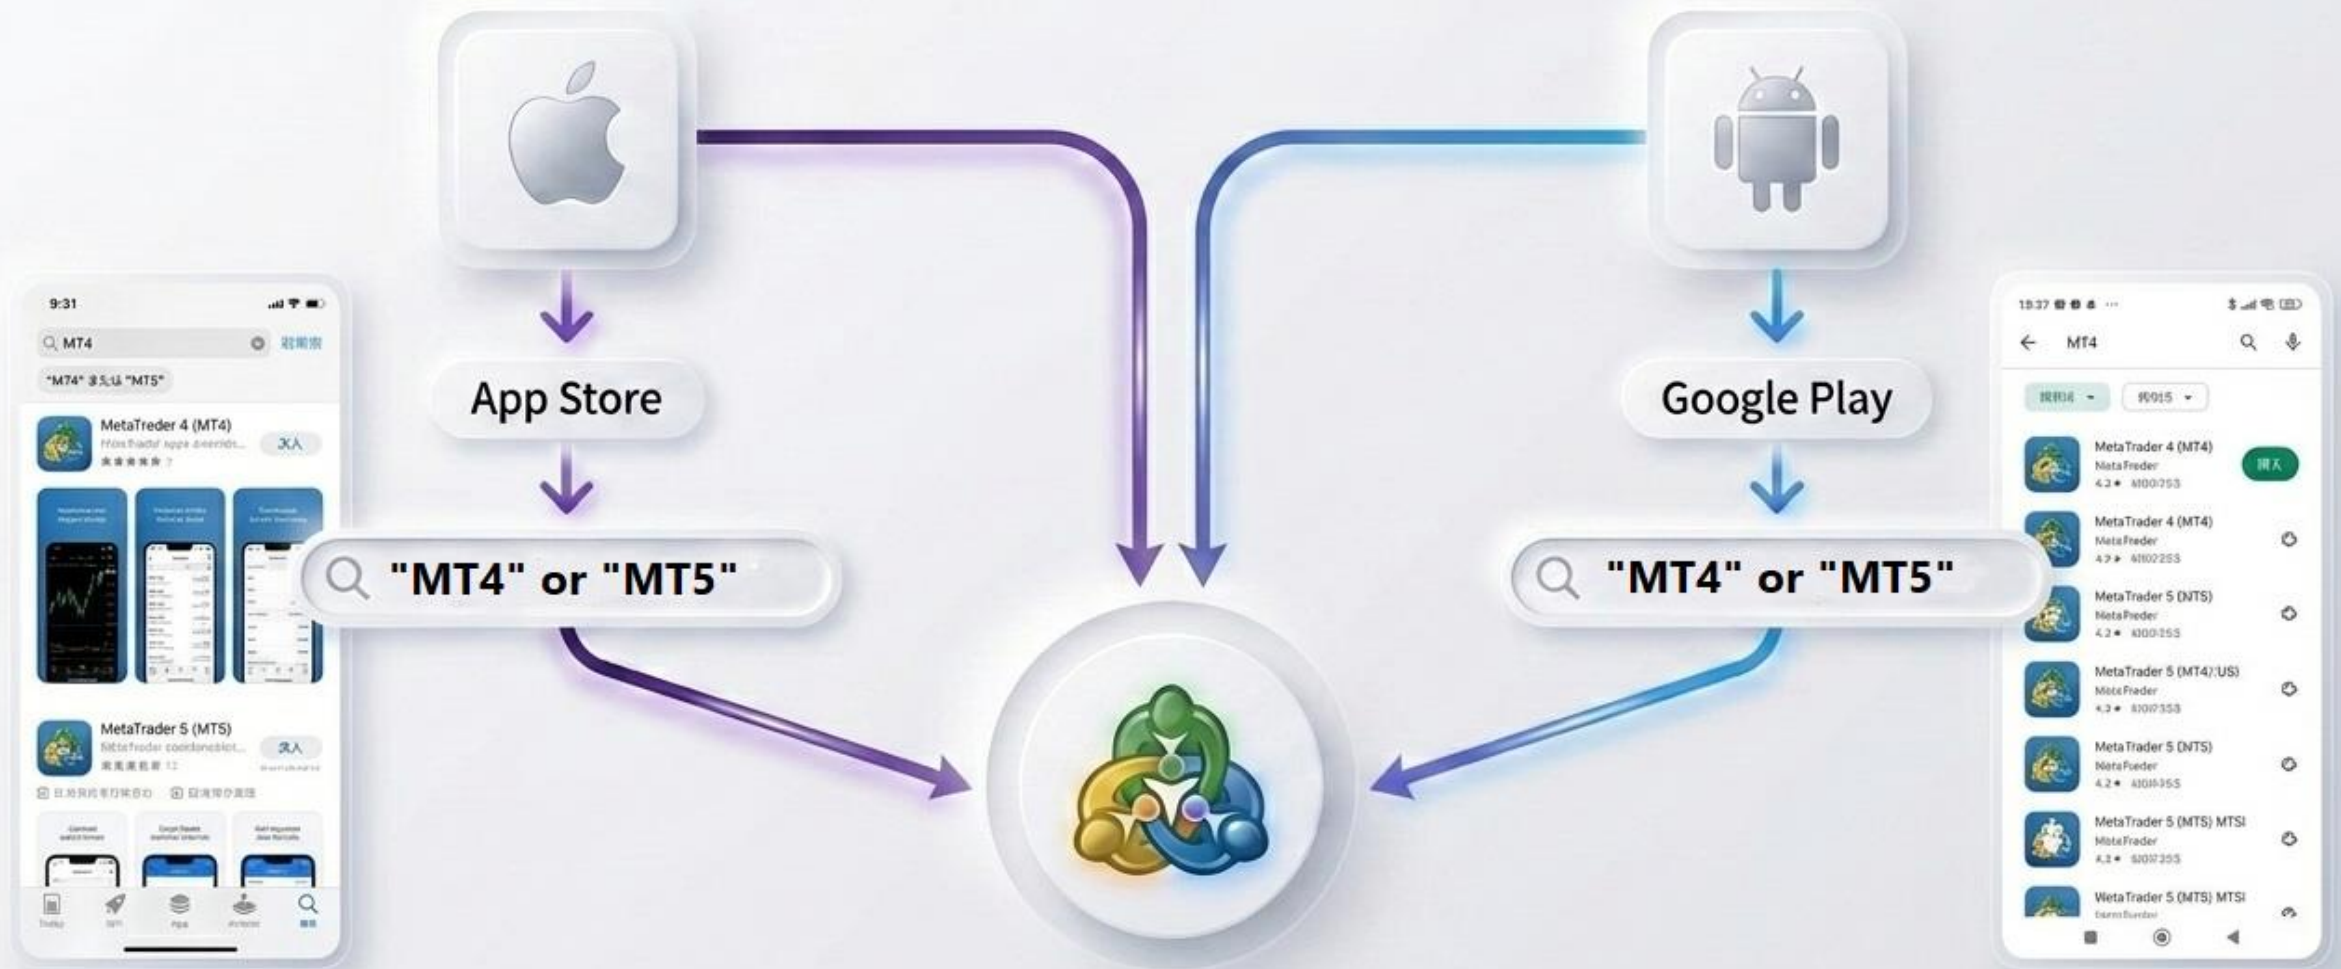

**Please verify that it exactly matches the information provided in your email.**

# App Download

MT4 or MT5

MT4 or MT5

Please install the official "MetaTrader" app that matches the type of account you opened (MT4 or MT5).

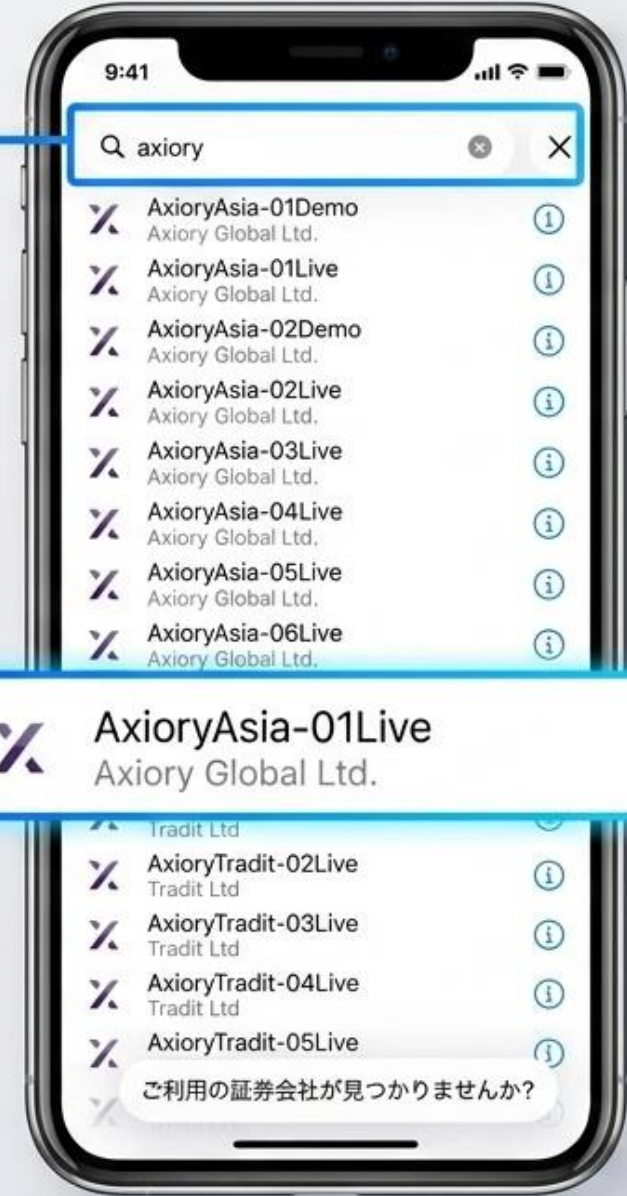

# Access to Your Existing Account

Open "Settings" in the bottom-right corner of the app, then select "**Login to an existing account**" from "New Account".

(※For Android: Tap the "+" icon at the top of "Account Management" in the top-left menu)

# Selecting the Correct Server

Enter "Axiory" in the search bar.

From the displayed list, tap the server name that exactly matches the one confirmed during your pre-preparation.

(Be careful not to select the wrong server between demo and live accounts)

# Enter Your Login Information

**Login:** Enter your AXIORY account number

**Password:** Enter your configured password

Account linking is successful once your balance loads properly.

# Basic Navigation Structure

# How to Read the Trade Screen (Mission Control)

Use this screen to continuously check your position status and account health (Drawdown) while running automated trading (EA).

## Balance:

Confirmed funds deposited in your account.

## Equity:

Real-time funds calculated as Balance plus floating profit/loss from open positions.

# Troubleshooting Diagnosis

**Ready**

**Your smartphone is now a world-class trading terminal.**

Enjoy seamless trading with AXIORY.
